STREN[®]

The Standard of Dependability

STREN[®]

Stren[®] Original[™]

THE STANDARD OF DEPENDABILITY

No other line is instantly recognizable or as widely acclaimed as Stren Original in the distinctive purple box. It casts effortlessly, ties a great knot and offers the perfect balance of strength, sensitivity, suppleness and abrasion resistance to give fresh and saltwater anglers the upper hand in any fishing situation.

Stren® Brute Strength™

EXTRA STRONG, EXTRA TOUGH, CASTABLE AND MANAGEABLE

Other "extra strength" monofilaments advertise superior strength, but their line can be fat, stiff and hard to cast. Stren Brute Strength is different. A proprietary new co-polymer formula provides extra strength while remaining flexible and easy to cast. Finally, an extra strong mono with the freedom to cast effortlessly!

Stren® Super Knot™

STRONGER KNOTS FOR A BETTER FISHING EXPERIENCE

Whether you're tying a double clinch or your own special knot, Stren Super Knot self-lubricating formula virtually eliminates breakage and knot failure. Super Knot is the first self-lubricating mono ever invented and it is designed to tie stronger, easier knots that are built to take abuse and keep the pressure on big fish. Most line breaks occur at the knot, Stren Super Knot is designed to reduce, if not totally eliminate knot breakage.

Clear

Lo-Vis Green

Stren® Magnathin™

AMAZINGLY THIN, ASTONISHINGLY STRONG

Natural lure action and low visibility are two features that position Stren Magnathin as a top choice for clear water or line-wary gamefish. Yet the defining feature of this remarkable line is its exceptional strength-to-diameter ratio. Anglers can drop down a size or two without sacrificing strength. When strength, thin diameter and casting accuracy count, knowledgeable anglers count on Stren Magnathin.

Stren® Stamina™

UNSURPASSED ABRASION RESISTANCE

Saltwater anglers are a hearty breed and they need line that's every bit as rugged. Stren Stamina fills the bill and has the power to tame trophy fish. Add that to its unmatched abrasion resistance and you have the perfect saltwater balance!

Clear

Stren® High Impact™

EXTREME SHOCK RESISTANCE FOR HARD-HITTING SPECIES

Extremely durable and well suited to every saltwater pursuit from bay and coastal fishing to blue water. With a great combination of strength, durability and impact resistance, it delivers the type of performance that serious coastal and offshore anglers demand on their casting, spinning and trolling reels.

STREN®

Stren® FluoroCast™

THE SMOOTH CASTING FLUOROCARBON

Don't be fooled by "fluorocarbon coated" imitations, FluoroCast is a true fluorocarbon that casts like a nylon monofilament. The high density line allows lures to run deep and is virtually invisible to fish. Amazingly sensitive, FluoroCast provides excellent knot and shock strength for hard hook sets.

Now available in new, 100 yd pony spools!

Clear

Stren® 100% Fluoro™

THE DEPENDABLE FLUOROCARBON

The world's first Clear/Blue Fluorescent fluorocarbon - Stren's signature color! Stren 100% Fluoro provides dependability and strength in a super-tough, abrasion resistant fluorocarbon that fluoresces above water, yet is virtually invisible under water.

Stren® Sonic Braid™

THE SUPERLINE THAT HAS IT ALL

The only superline featuring GlideCoat™ technology, which produces a fast casting, super smooth, quiet and wear resistant braided line. GlideCoat treatment also holds color better than other superlines. Stren Sonic Braid is made with the highest strength Dyneema® polyethylene (PE) fiber construction - stronger than steel. The round, full-bodied construction resists wind-knots and other handling problems found in ordinary braids. With unmatched knot strength for dependability.
